EXPERIENCE

Electra-Wheeler | Frontend Dev Intern

July 2023 - Sept 2023

- Assisted in the development and maintenance of user-friendly web interfaces using HTML, CSS, and JavaScript, reducing page load time by 25%.
- Collaborated with the design team to implement responsive and visually appealing layouts.
- Created authentication pages, product listings, and home pages, ensuring they were fully responsive, leading to a 20% decrease in bounce rates.
- Utilized version control systems like Git for code management and collaboration, improving code deployment efficiency.
- Contributed to the optimization of web performance, ensuring fast load times and smooth user experiences.

MeriBhoomi.com | Frontend Developer

July 2025- current

- Developed "My Land Back" functionality by integrating backend APIs to fetch and display user-specific land records in real time.
- Upgraded land search functionality by enabling users to search using either Tehsil name OR village name OR city name, reducing form friction and improving user experience.
- Built a "Mutation Tab" that displays a list of lands along with their associated dispute details and legal status.
- Developed a full-featured admin panel empowering admins to add, edit, and manage news content independently.
- "Integrated comprehensive 'Land History' feature for specific land details, allowing users to view complete ownership timelines and transaction records."

SKILLS

Programming Languages: C/C++, Javascript,Python
Libraries/Frameworks: React.js, Next.js,Shadcn/ui, Tailwind css,Node.js
Tools / Platforms: Visual Studio Code Editor, Git(Version Control System), Github
Databases: SQL

PROJECTS / OPEN-SOURCE

Full Stack Quiz Web Application | [Link](#)

React.js,Firebase

- Integrated user authentication (registration and login) with Firebase Authentication.
- Allowing users to select the type and difficulty level of questions.
- Implemented a timer-based assessment feature that automatically stops when the allocated time expires.
- Developed logic for displaying real-time results, including correct and incorrect answers, after the quiz completion.
- Ensured responsive design, optimizing the application for mobile, tablet, and desktop devices

Project Manager Web Application | [Link](#)

React.js,Tailwind Css

- Built a responsive web application using React.js and Tailwind CSS, streamlining component-based design with a focus on UI/UX consistency and flexibility.
- featuring a project tab system where users can create and manage tasks within each project.

TextCode | [Link](#)

Next.js,Tailwind Css,Convex,Clerk,Framer Motion

- Implemented a dynamic, responsive frontend with Next.js and Tailwind CSS, enhanced by Framer Motion for smooth UI transitions and animations.
- Integrated Clerk authentication for secure, easy sign-in/sign-up processes and session handling.
- Used Convex backend-as-a-service to handle scalable, real-time database updates and synchronization between user sessions.
- Integrated Proton API for secure and efficient code compilation/execution, supporting languages such as Python, JavaScript, C++, Java, TypeScript, Go, Ruby, PHP, and More.

EDUCATION

Shri Shankaracharya Institute of Professional Management and Technology

Chhattisgarh,India

Computer Science Bachelor of Technology

CGPA: 7.5
